Rainwater harvesting in style

STYLISH TANKS

MODERN LINE  EXCLUSIVE LINE  CLASSIC LINE  BASIC LINE
For over 50 years, Otto Graf GmbH has been offering highclass plastic products to its customers.

In 1974 GRAF developed its first pioneering range of rainwater harvesting products.

We are the market leader in Germany and Europe for plastic rainwater collectors.

Make some serious savings

Mains water is an expensive commodity — much too expensive to be used for watering plants. Rainwater harvesting is a perfectly available alternative. GRAF offers a range of stylish harvesting rainwater tanks for your garden which are both kind on your purse and extremely pleasing to the eye.

Smart people water their garden with rainwater.

For plants, there’s no water better than rainwater. It’s clean, soft, well-behaved, free and falls from the sky on a regular basis. It’s much better than tap water and groundwater, which are cold and often hard. Rainwater tanks are therefore becoming an increasingly common feature in gardens.

A special filter, which filters the precious resources and prevents the tank from overflowing, makes the ideal connection to the downpipe.

Manufacturing certified according to ISO 9001

We love our garden!

There’s a stylish tank to suit all tastes

Choose your tank from more than 70 sizes, shapes and colours

For over 50 years, Otto Graf GmbH has been offering highclass plastic products to its customers.

In 1974 GRAF developed its first pioneering range of rainwater harvesting products.

We are the market leader in Germany and Europe for plastic rainwater collectors.

Make some serious savings

Mains water is an expensive commodity — much too expensive to be used for watering plants. Rainwater harvesting is a perfectly available alternative. GRAF offers a range of stylish harvesting rainwater tanks for your garden which are both kind on your purse and extremely pleasing to the eye.

Smart people water their garden with rainwater.

For plants, there’s no water better than rainwater. It’s clean, soft, well-behaved, free and falls from the sky on a regular basis. It’s much better than tap water and groundwater, which are cold and often hard. Rainwater tanks are therefore becoming an increasingly common feature in gardens.

A special filter, which filters the precious resources and prevents the tank from overflowing, makes the ideal connection to the downpipe.

Manufacturing certified according to ISO 9001
The integrated plant cup enables an individual design for all 2in1 water tanks.

The tank material is 100% recyclable. We attach great importance to durable product design, right from the product development stage. Manufacture is carried out using state-of-the-art production facilities, which ensures that the environmental impact is minimised in the long run.

100% RECYCLABLE
The tank material is 100% recyclable. We attach great importance to durable product design, right from the product development stage. Manufacture is carried out using state-of-the-art production facilities, which ensures that the environmental impact is minimised in the long run.

CHILD-PROOF
With their closed tank shapes or integrated covers, Graf decorative tanks are childproof.

WEATHER-RESISTANT
A rainwater tank is exposed to weather conditions and extreme temperature fluctuations. Materials adapted to these conditions ensure a long-lasting attractive appearance.

THREADED CONNECTION
A standard 19 mm (¾”) thread connection makes the tap (accessories) easy to install without drilling. Using a tap or the GRAF Universal Hose Kit (accessories), water extraction couldn’t be easier.

INCLUDING MOUNTING ACCESSORIES
Each tank is supplied together with suitable assembly accessories. These may include an inlet seal, a plant mat for plantable tanks, and wind protection for tanks installed against walls.
PURE NATURE!

The tank with wavelike surface texture presents itself in ever new facets depending on the incidence of light. The Natura 2in1 water tank sets a lively trend on your terrace.

Top-Tank | Garden-tank | Garden-tank Classico

### Top-tank 1.300 l (343 US gal.)
- Ø max. 118 cm (3' 10.5")
- Height 156 cm (5' 1.4")
- Weight 30 kg (66.1 lbs)
- dark green, order no. 323001
- Reasonably priced solution for above-ground rainwater harvesting
- Extremely stable
- Can be extended in any way
- Preformed connections: 2 x DN 70, 2 x DN 100 and 1 x DN 200 suitable for standard high-temperature wastewater pipes

### Garden-tank Classico
- 650 l (172 US gal.)
  - Width 80 cm (31.5") | Depth 60 cm (23.6")
  - Height 192 cm (6' 3.6") | ø Lid 38 cm (15")
  - Weight 52 kg (114.6 lbs)
  - dark green, order no. 326030
- 1.300 l (343 US gal.)
  - Set consists of 2 x 650 l (172 US gal.) tank, including connection kit
  - Width 165 cm (5' 5") | Depth 60 cm (23.6")
  - Height 192 cm (6' 3.6") | ø Lid 38 cm (15")
  - Weight 56 kg (123.5 lbs)
  - dark green, order no. 326035
- 2.600 l (687 US gal.)
  - Set consists of 4 x 650 l (172 US gal.) tank, including connection kit
  - Width 335 cm (10' 12") | Depth 60 cm (23.6")
  - Height 192 cm (6' 3.6") | ø Lid 38 cm (15")
  - Weight 112 kg (247 lbs)
  - dark green, order no. 326036

### Garden-tank 750 l (198 US gal.)
- Width 88 cm (34.6") | Depth 72 cm (28.3")
- Height 156 cm (5' 1.4") | ø Lid 38 cm (15")
- Weight 39 kg (86 lbs)
- dark green, order no. 326010

### Garden-tank 500 l (132 US gal.)
- Width 88 cm (34.6") | Depth 72 cm (28.3")
- Height 108 cm (3' 6.5") | ø Lid 38 cm (15")
- Weight 23 kg (50.7 lbs)
- dark green, order no. 326022

### Garden-tank 750 l (198 US gal.)
- Width 88 cm (34.6") | Depth 72 cm (28.3")
- Height 156 cm (5' 1.4") | ø Lid 38 cm (15")
- Weight 39 kg (86 lbs)
- dark green, order no. 326010

### Garden-tank 2.000 l (528 US gal.)
- Set consists of 2 x 1.000 l (264 US gal.) tank, including connection kit
- dark green, order no. 326015

### Garden-tank 1.000 l (264 US gal.)
- Width 105 cm (3' 5.3") | Depth 77 cm (30.3")
- Height 108 cm (3' 6.5") | ø Lid 38 cm (15")
- Weight 23 kg (50.7 lbs)
- dark green, order no. 326022

### Garden-tank Classico
- 650 l (172 US gal.)
  - Width 80 cm (31.5") | Depth 60 cm (23.6")
  - Height 192 cm (6' 3.6") | ø Lid 38 cm (15")
  - Weight 52 kg (114.6 lbs)

  - Height 192 cm (6' 3.6") | ø Lid 38 cm (15")
  - Weight 56 kg (123.5 lbs)
  - dark green, order no. 326035

### Garden-tank 2.600 l (687 US gal.)
- Set consists of 4 x 650 l (172 US gal.) tank, including connection kit
- Width 335 cm (10' 12") | Depth 60 cm (23.6")
- Height 192 cm (6' 3.6") | ø Lid 38 cm (15")
- Weight 112 kg (247 lbs)
- dark green, order no. 326036

### Practical advantages of Top-Tank
- Ease of transport
  - Each half of the Top-Tank only weighs 30 kg (66 lbs). This allows easy of transport and manual installation.
  - The tank halves fit through any doorway (80 cm (31.5") width and above).
- Patented quick connection
- Self-supporting design
- Reasonably priced solution for above-ground rainwater harvesting
- Extremely stable
- Can be extended in any way
- Preformed connections: 2 x DN 70, 2 x DN 100 and 1 x DN 200 suitable for standard high-temperature wastewater pipes

### Accessory Top-tank
- Extention set DN 70
  - Consisting of 2 x special seals (without drill and connecting pipe)
  - order no. 322010
- Suction fitting 2.5 cm (1")
  - without hose | afloat
  - order no. 330054
- Drill DN 70
  - with mounting shank
  - order no. 202002
How does a downpipe filter work?

**Connection made easy:**

**Installation and connection of a GRAF decorative tank**

**DOWNPIPE FILTER**

Downpipe filters reliably filter dirt from rainwater, thus ensuring optimal water quality. The water butt cannot overflow due to an overflow stop. The excess water simply flows back into the downpipe. In the winter, the inlet to the rainwater tank is easy to stop.

The downpipe filter ensures optimal water quality.

**DRAIN TAP**

Water extraction is made extremely convenient by the GRAF tap (accessories). It is screwed into the tank’s standard thread connection without the need for drilling.

**GRAF UNIVERSAL HOSE KIT**

The GRAF universal hose kit (accessories) provides an additional extraction option. It is used to leverage the tank’s full volume, and also as a fill level indicator. The hose kit (accessories) is either screwed into the tank’s convenient connection or mounted on to the tank using a drill and a seal.

**VIDEO TIP**

How does a downpipe filter work?

www.graf-water.com

**Tank accessories**

Page 50

The ground must be level for the installation of a tank.

The downpipe is connected using a downpipe filter.

A hole is drilled in the tank for the installation of the inlet seal.

The integrated plant cup enables an individual design.

Your decorative tank is now perfectly installed and connected.

You will find the video on our website www.graf-water.com
Rain collector **Speedy**

The installation champions

Rain collector Speedy

**Height** 9 cm (3.5”) | ø 6 cm (2.4”)

Order no. 503041

- No removal of the downpipe for the installation
- Distance between downpipe and wall is irrelevant
- With Overflow function
- Summer/winter operation
- With filter insert
- Downpipe sizes 70 – 100 mm (2.8” – 4”)
- Including core drill, connection seal and flexible connection hose 40 cm (15.7”)

---

**Rain collector Rapido**

**Height** 8.3 cm (3.3”) | ø 6 cm (2.4”)

Order no. 503073

- No removal of the downpipe for the installation
- Distance between downpipe and wall is irrelevant
- With Overflow function
- Summer/winter operation
- With filter insert
- Downpipe sizes 70 – 100 mm (2.8” – 4”)
- Including core drill, connection seal and flexible connection hose 40 cm (15.7”)

---

**Rain collector Rapido Quattro**

**Height** 8.3 cm (3.3”) | ø 6 cm (2.4”)

Order no. 503071

- Suitable for square downpipes
Rain collector **Avanti** | Regendieb

**Rain collector Avanti**  
Order no. 503076

- No removal of the downpipe for the installation
- Distance between downpipe and wall is irrelevant
- With Overflow function
- Including core drill, connection seal and flexible connection hose 40 cm (15.7”)
- Simple, quick installation

**Regendieb**

- Stainless steel sieve
- Downpipe sizes 70 – 100 mm (2.8” – 4”)
- Including connection seal

**Regendieb Pro**  
The slim version for big roof areas

**Regendieb Pro**

- Height 25.5 cm (10") | ø 13 cm (5.1”)
- **grey** order no. 344202
- **brown** order no. 344203

- New filter principle with greater filter area
- Slim design – only 16 mm (0.6") distance between downpipe and outside wall
- Turnable filter body for flexible connection
- Downpipe sizes 70 – 100 mm (2.8” – 4”)
- Including connection seal

**FOR ROOF SURFACES UP TO 200 m² (2152.8 ft²)**

**Rain collector Avanti**

- Drill
- Plug In
- Done

**Regendieb**

- Height 25 cm (9.8") | **Width** 35 cm (13.8")
- **Depth** 20 cm (7.9")
- **grey** order no. 343011
- **brown** order no. 343010

- New filter principle with greater filter area
- Slim design – only 16 mm (0.6") distance between downpipe and outside wall
- Turnable filter body for flexible connection
- Downpipe sizes 70 – 100 mm (2.8” – 4”)
- Including connection seal

**TIP**

- Connection set Flex-Comfort  
  + E.g. **grey** order no. 20003
  + For details please see page 51

**Drill Plug in Done**

- Drill
- Plug In
- Done
Filling device | Filling device de luxe

**Filling device**
- Height 11,5 cm (4.5") | Ø 13 cm (5.1")
- Grey order no. 503010
- Brown order no. 503011
- Suitable for oval and square downpipes
- 25 mm (1") side outlet, with hose and screw connection

**Filling device de luxe**
- Height 15 cm (5.9") | Ø 15 cm (5.9")
- Grey order no. 503014
- Brown order no. 503015
- Suitable for oval and square downpipes
- 32 mm (1 ¼") side outlet, with hose and screw connection

**Foliage guard**
- Height 35 cm (13.8") | Width 11 cm (4.3")
- Depth 18 cm (7.1")
- Grey order no. 346013
- Brown order no. 346011
- Reliably traps leaves and large contaminants, preventing the downpipe from getting blocked
- Ideal in areas with a lot of leaves e.g. as pre-filter
- Self-cleaning and low-maintenance
- Convenient removal of screen area without having to dismantle the filter for cleaning or before frost period
- Can be easily switched from summer to winter use
- Downpipe sizes 70 – 100 mm (2.8” – 4”)

**Quattro | Quattro Twist**

**Quattro Twist**
- Height 24,5 cm (9.7") | Width 16 cm (6.3")
- Grey order no. 503060
- Beige order no. 503052
- Turnable 90°, patented
- 2,5 cm (1") side outlet
- Suitable for oval and square downpipes
- Easy to switch from summer to winter operation
- High water yield (approx. 90 %)
- With internal sieve

**Quattro**
- Height 11,9 cm (4.7") | Width 10,3 cm (4.1")
- Grey order no. 503060
- Beige order no. 503062
- Suitable for oval and square downpipes
- Easy to switch from summer to winter operation
- High water yield (approx. 90 %)
- 19 mm (¾") side outlet
- With internal sieve
**Accessory**

For water butts and overground water tanks

- **Tap**
  A must for all stylish tanks! Suitable for all products of Classic and Exclusive Line, socket size 19 mm (¾”), incl. teflon sealing tape.

- **Tap with tank screw**
  Connection for Herkules, top and garden tank, size 19 mm (¾”), incl. teflon sealing tape.

- **Aqua-Quick plastic tap**
  With brass finish, suited to all above-ground tanks and water butts, socket size 19 mm (¾”).

- **Aqua-Quick 4-part plastic tap kit**
  So that water can run faster! Plastic tap with brass finish in complete kit consisting of: tap with seal and screw connection, connecting pieces for standard hose fitting, hose 13 mm (½”) and hose 19 mm (¾”), union nuts and seals.

- **Universal Hose Set ¾”**
  Kit for complete water extraction and water level display for above-ground rainwater storage tanks. Consisting of 2.15 m (7’ 0.6”) flexible hose, extraction tap and various connection options. Suited to all storage tanks.

- **Connection set Flex-Comfort**
  Extra-long and extremely flexible connection kit (40 cm (15.7”) ) to connect rainwater tanks as well as Regendieb, Regendieb de luxe and Regendieb Pro. Includes extensive installation accessories.

- **Overflow bend**
  With hose connection

- **Child-proof lock | wind protection**
  For water butt cover (reusable), 4 items

- **Tap connection**
  With inside and outside thread, made of plastic, suitable for 19 mm (¾”) tap with outside thread and other taps.

- **Water butt connection kit**
  Consisting of two hose connections with lock nut and 25 cm (9.8”) hose.

- **Scope of supply:**
  Flexible 40cm (15.7”) connection hose, core drill and hose connector; with 2 x connection fittings, inlet seals and hose clips.

**Design chrome tap 19 mm (¾”)**
This stylish chrome tap is suitable for all tanks of Modern line. Chrome polished, size 19 mm (¾”), incl. teflon sealing tape.

**Order no.** 330282

**Tap for water butts**
Water butt tap with sealing ring and lock nut, size 19 mm (¾”).

**Order no.** 504011

**Aqua-Quick plastic tap**

**Order no.** 504040

**Aqua-Quick 4-part plastic tap kit**

**Order no.** 504044

**Scope of supply:**

**Grey**
order no. 220019

**Brown**

 Prices:
A price list with our export conditions is available on request.

Warranty clause:
The warranty mentioned in this brochure only refers to the tank in question and not to the accessories. Within the warranty period we grant free replacement of the material. Further benefits are excluded. Pre-condition for warranty benefits are proper handling, assembly and installation according to the mounting guidelines.

Over and above the statutory regulation, GRAF is lengthening the warranty period for a number of underground tanks. This relates to proper handling, assembly and installation in accordance with the installation manual, as well as leakproofness, usability and static safety. The prerequisites of this are competent assembly and operation in accordance with the requirements, namely the currently valid installation and operating instructions and the prevailing standards.

N.B. Protect tanks from frost when installed aboveground! In case of groundwater installation, please contact us for further information previous to the purchase!

For all indications of measurements in this brochure we reserve a tolerance of +/- 3%. The useful volume of the tanks may be up to 10% lower than the tank capacity, according to the connecting option.

Technical modifications and further development of the different products are subject to change. Errors excepted.

For all our offers and conclusions of contract are only valid our General Terms and Conditions of Business dated 01/10/2012 which we will send to you on request.
